Attachments: 2015-11_EPA Congener Data.xlsx

Hi Maryam,

You may also find the attached spreadsheet useful – it contains EPA's congener data. I've included the total PCB and total TEQ values for each sample location.

Please let me know if you have any questions.

Best regards,

Sara

Maryam –

Attached please find the split sampling data for the November 2015 split sampling effort. I've included the .pdf of the Aroclor data from the EPA Region 9 lab, a one-page Excel spreadsheet of the data comparison (total Aroclors) between EPA and Curtis & Tompkins, and the .pdf summary report of EPA's PCB congener samples (which were analyzed at a contract laboratory under EPA's Contract Laboratory Program). The entire data package for the PCB congeners is 980 pages long and too large to email, but we can provide it to you via CD if needed.

Please let me know if you need more information-
Kathy

Hi Kathy,

Please see Maryam's note to me below. Can you please email DTSC our split data?

Many thanks,

Sara

On another note, could you send us the EPA colocation data? Thanks.

Sent from my mobile device.

Hi Ross and all,

Thank you for the final soil sampling report. EPA has no further comments on the report.

Best regards,

Sara

Maryam,

Attached is the final soil sampling report for the Riverside Ag Park. EPA comments have been incorporated.

Respectfully,

Ross Surrency, PG
